

Base model on test set :

```
788/788 [=====] - 0s 178us/step
Classification report for base model:
              precision    recall  f1-score   support

     0       0.99         1.00         1.00     11750
     1       1.00         1.00         1.00     13445

 accuracy          1.00
 macro avg          1.00
weighted avg          1.00

Confusion Matrix:
[[11710   40]
 [   64 13381]]
```
